Product Summary

Our furniture is handcrafted from beautiful wood-European bird's eye maple, African and Philippine mahogany, Yugoslavian beech, American cherry and Ash. Solid timber and veneers are selected with the utmost care and precision to ensure a lifetime of pleasure. Because each piece is handcrafted from these beautiful living timbers it is unique, including any whorls in the wood itself or minor variations in colour and texture.

As a natural product it has been protected, sealed and finished with first grade lacquer (which is heat, water and alcohol resistant, -these processes are NOT proof against these elements). It therefore-naturally-deserves the best care from its owner.

Product Attributes

- Dimensions: 790 x 740 x 1150 cm
